

Easily integrate with *QuickBooks*

Learn more about our
QuickBooks integration.

Bidirectional sync

Connect Expensify to QuickBooks Online or Desktop for an automatic data sync between platforms.

Easy expense coding

Automatically import your QuickBooks chart of accounts, classes, locations, and more for simple expense coding.

Corporate card reconciliation

Expensify automatically syncs card transactions to receipts, making reconciliation a breeze.

Vendor matching

Expensify auto-matches expense merchants to your QuickBooks vendors on export.

Custom export options

Export out-of-pocket expenses as checks, vendor bills, or journal entries. Export company cards as debit cards, credit cards, or vendor bills.

Full mobile control

Manage every QuickBooks integration setting from the Expensify mobile app, no computer required.
